NEWS FROM NEW-JERSEY.

THE ELECTION FRAUD IN NEW-BRUNSWICK. Important testimony was introduced resterday in the Circuit Court at New-Brunswick in the investigation of the election frauds in the Sixth Ward, by which the Republican candidate for County Clerk was counted out. Louis Well, of Newark, an expert in the mechanism of the ballot-box, was called. He said that the tickets as they pass through the aper-ture of the box are stamped, milled and punctured. the ballot-box used in the Sixth Ward the rubber band which stamped the tickets was missing, and the which governed the punching apparatus was liable to get out of order frequently. The four Democratic Fre-holders just managed to squeeze through, their majority being a rille over 100. Scores of prominent Democrats voted openly for the Republican Mayoralty candidate. A pleasing feature of the day was the election to the City Council of William H. Corbin.

Long Branch, Dec. 4 (Special).—The Long Branch on Pier, like Long Branch's famous ocean bluff, is months the waves have been eating into the shore-end of the pier. Last night's high tide and rough sea the pier's only support, gave way and the mammoth ocean pier wrenched itself fully two feet away. The heavy iron girders that supported the shore-end of the tast fall. The expensive concrete sea-wall that was bufft six years ago, which has protected the pier. has also given way. To night the breakers are eating into the bluff underneath the pier and more damage will be done. Superintendent Frank M. Taylor has had men at work all day endeavoring to save the pier from further damage, but, as fast as any piling is sunk, the wash of the breakers undermines them and they give way. Five thousand dollars will not repair the damage done so far.
